Nodal Clear Extends 24×7 Clearing to Nano Solana and Nano XRP Perpetual-Style Futures

WASHINGTON, DC, AUGUST 14, 2025

Nodal Clear will extend 24×7 clearing to support Coinbase Derivatives Exchange's launch of nano Solana (SLPZ30) and nano XRP (XPPZ30) perpetual-style futures expected on Trade Date Monday, August 18, 2025, with trading starting Friday, August 15 at 17:00 CT.

These 5-year, cash-settled, margined contracts, sized at 5 Solana and 500 XRP, will be cleared around the clock by Nodal Clear, providing traders with continuous, U.S.-regulated access to capital-efficient, perpetual-style futures markets.

With 24×7 clearing and trading, market participants can execute strategies anytime, in a secure and compliant environment, without the regulatory and counterparty risks of offshore exchanges.
