Nodal Clear Expands 24×7 Clearing to Solana and XRP Futures

WASHINGTON, DC, JUNE 13, 2025

On June 13th, Nodal Clear expanded its 24×7 (24 hours by 7 days) clearing support for Coinbase Derivatives Exchange (CDE) to include Solana and XRP futures.

This extension comes just over a month since Nodal Clear announced it would be offering clearing support for 24×7 trading of select cryptocurrency futures contracts on CDE.

With the addition of Solana and XRP futures products, the following is the complete list of 24×7 eligible products:

- Bitcoin Futures (BTI) – 1 Bitcoin
- Ether Futures (ETI) – 10 Ether
- nano Bitcoin Futures (BIT) – 1/100th of Bitcoin
- nano Ether Futures (ET) – 1/10th of Ether
- nano Solana Futures (SOL) – 5 Solana
- nano XRP Futures (XRP) – 500 XRP
- Solana Futures (SLC) – 100 Solana
- XRP Futures (XRL) – 10,000 XRP

“Nodal Clear is proud to be the first clearing house to ever offer 24×7 clearing for margined futures contracts. The expansion of this support to Solana and XRP reflects our commitment to deliver operational excellence for our clearing members, Coinbase Derivatives Exchange and its trading community,” said Paul Cusenza, Chairman and CEO of Nodal Clear. “Our unique risk management approach sets us apart and allows us to support continuous trading.”

For more information on how Nodal Clear supports CDE’s 24×7 operations, please contact clearingsupport@nodalclear.com or call 703-962-9860.
